### REASONS FOR ALLOWANCE

Claims 4-15 are allowed in light of amendments/arguments filed by applicant on 26 May 2005. A statement of the examiner's reasons for allowance follows:

The instant invention provides an imaging lens system applicable to a solid image sensor element comprising (*e.g. in order, from the object side of the imaging lens system*) a positive meniscus lens with a convex surface facing the object side, a diaphragm, and a second meniscus lens with a concave surface facing the object; which simultaneously satisfies the six (6) conditional relationships set forth in applicant's sole independent claim (Claim 4, Lines 9-12). The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of applicant's independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
